

Stockholm outdoor communication battery cabinet processing

Overview

What is a commercial energy storage system?

The commercial energy storage utilizes a high-density LPF Battery, which is a type of Lithium-ion battery that uses iron phosphate as the cathode material. These commercial battery storage systems are known for high energy density, long life, and excellent performance at high temperatures.

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.

Does MBG Sweden offer a battery scoop?

MBG Sweden offers battery scoops in different sizes to meet most needs. All scoops are fire rated with protection against internal and external fire for 90 minutes and are equipped with alarm systems that sound an alarm when the internal temperature of the scoop exceeds +50°C.

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.
