## Overview

---

How big is the Taiwan solar photovoltaic (PV) market?

For further assistance, please connect with our analysts. According to the latest research report, the Taiwan solar photovoltaic (PV) market size is expected to grow at a CAGR of 11.50% during 2024-2032.

What drives the solar PV market in Taiwan?

The integration of solar PV with agricultural activities, along with the wide availability of agricultural land is a crucial factor driving the solar PV market in Taiwan. According to Central Intelligence Agency (CIA), as of 2018, Taiwan possessed 22.7% of agricultural land.

Why does Taiwan need a solar PV system?

The increasing electricity demand of Taiwan is another significant driver of the solar PV market. As the economy of the region grows, so does its energy consumption. To meet this growing demand, Taiwan is turning to renewable energy sources, particularly solar PV, to diversify its energy mix and reduce reliance on imported fossil fuels.

How the Taiwanese government contribute to the growth of solar photovoltaic (PV) market?

The Taiwanese government has played a significant role in driving the growth of the solar photovoltaic (PV) market through various incentives and support mechanisms. The government has implemented the Renewable Energy Development Act, which aims to increase the share of renewable energy in energy mix of Taiwan.
