

GETON CONTAINERS

Tashkent Off-Grid Solar Containerized Wind-Resistant Type

Overview

Where is PV plant located in Tashkent?

The PV plant site is located along the 4R-12 district highway, which links feeder roads within the districts of Yukorichirchik, Parkent and Kibray to the ring road along the outskirts of Tashkent City. The single carriageway is paved and in good condition.

Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

What is the capacity of solar plant in yuqorichirchik?

The solar (PV) plant sited within Yuqorichirchik District will operate at a capacity of 200 MW, with a total estimated lifetime yield of 11,861,233 MWh. The PV plant components involved in the generation of electricity from solar radiation are described as follows.

How has air temperature changed in Uzbekistan?

Mean annual air temperatures have risen steadily and significantly in Uzbekistan over the past few decades, with varying rates of increase. Between 1990 and 2020, the country's mean annual temperature grew at a rate of 0.03°C per decade.
