# Third-party investment in enterprise energy storage power stations

## Overview

---

How to promote the implementation of independent energy storage stations?

To promote the implementation of independent energy storage stations, it is necessary to further optimise the electricity market mechanism, segments and targets. Investor participation is beneficial for the development of the energy storage industry.

Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

How many electrochemical storage stations are there in 2022?

In 2022, 194 electrochemical storage stations were put into operation, with a total stored energy of 7.9GWh. These accounted for 60.2% of the total energy stored by stations in operation, a year-on-year increase of 176% (Figure 4).

Why is industrial & commercial energy storage a key application sector?

Industrial and commercial energy storage, as a crucial application sector, has experienced explosive growth in recent years, driven by both policy incentives and increasing demand.

## Third-party investment in enterprise energy storage power stations

[New Energy Storage Technologies Empower Energy ...](#)

In terms of investment and operation, power grid enterprises lack the motivation to invest in energy storage projects as there are settlement problems for non-independent energy ...
