

Wellington three phase inverter supplier

Overview

Are victron inverters grid compliant?

You will find Victron equipment being used for marine and mobile applications, through to some of the largest residential and industrial systems. The go-to inverter for off-grid systems, it is also fantastic when integrated into grid-tie systems with both the Multiplus-II and EasySolar-II ranges being grid compliant.

What is a Multiplus & Multiplus-II inverter?

One of our go-to inverters for systems with a 12V, 24V or 48V battery set-up, the MultiPlus and Multiplus-II are combined inverter and chargers in one elegant package. The Multiplus is generally deployed in off-grid systems, with the AC input allowing connection to and management of a back-up power source, such as a generator.

Do Fronius Inverters come with a warranty?

Fronius inverters come with a 10-year warranty (5 year base warranty, extended to 10 years upon registration). The inverter that has quickly become the gold standard for grid-tie applications. The upgradeable Fronius GEN24 inverter provides you with efficient, reliable, direct use of the solar energy you generate at home.

Which inverter is best?

Fronius and Victron, two of the absolute best brands available. The Austrian company, Fronius, has long been producing inverters that have topped lists of the world's best inverters. Their inverters bring peerless European engineering and finish quality, alongside market-leading efficiency. grid connection and top-notch monitoring from your phone.
