

What are the solar container battery standards in Ethiopia

Overview

Are solar water pumps a viable technology in Ethiopia?

Within the emerging Ethiopian PURE market, solar water pumps (SWPs) are the leading PURE technology and are sold by 90% of PURE businesses. SWPs and other solar irrigation equipment show significant market potential, with studies indicating that they can irrigate 6,800 hectares and service over one million farmers.

What is the Ethiopia Solar Energy Development Association (eseda)?

The Ethiopia Solar Energy Development Association (ESEDA) is an independent non-profit association dedicated to facilitating the growth and development of the solar energy business in Ethiopia. ESEDA (previously SEDA-E) was established in September 2010 by dedicated solar energy market stakeholders in Ethiopia.

How many government institutions influence the adoption of Pure Technologies in Ethiopia?

However, this is not the case for PURE. With MOWE at the center (with no clear targets for PURE market growth), approximately ten government institutions oversee and/or influence the development and adoption of PURE technologies in Ethiopia (see Table 3).

Who are the primary customers of pure suppliers in Ethiopia?

Governmental and non-governmental organizations (NGOs) are the primary customers of most PURE suppliers in Ethiopia. SWPs are the leading PURE technology type in the Ethiopian market, with these being sold by 90% of the businesses surveyed.
