

# **What is the solar hybrid power supply for Mozambique solar container communication station**

## Overview

---

Who has commissioned a hybrid solar plant in Mozambique?

The English company Globeleq has awarded TSK the design, supply and commissioning of a hybrid solar plant with storage system in Mozambique.

What does Cuamba solar mean for Mozambique?

The plant is the first IPP in Mozambique to integrate a utility-scale energy storage system and includes an upgrade to the existing Cuamba substation. The Cuamba Solar plant supplies enough power for 21,800 consumers over the project's life and is expected to avoid the equivalent of more than 172,000 tonnes of CO2 emissions.

Who is building a solar power plant in Mozambique?

The Spanish group TSK has won the contract to build the Cuamba solar power plant in the Niassa province of Mozambique.

Where is Mozambique's new energy storage project located?

The \$32 million project is located in the Tetereane district of the city of Cuamba, Niassa province, about 550 km west of the coastal city of Nacala and is the first IPP in Mozambique to integrate a utility-scale energy storage system and includes an upgrade of the existing Cuamba substation.
