# What is the warranty policy for the battery cabinet in Senegal City

## Overview

---

How long does a battery warranty last?

If it can't be judged by the above two information, the warranty starting date shall be 6 months after the product was manufactured. SIGENERGY warrants that the battery system retains either seventy percent (70%) of Usable Energy for ten (10) years, or for a Minimum Through Output Energy which is calculated from the earlier of installation date.

Are Samsung batteries covered by warranty?

Most warranties exclude damage from accidents, water exposure, extreme temperatures, or use with non-certified chargers. Samsung's battery policies void coverage if discharged below 20% regularly. Thermal runaway events in lithium-ion batteries are rarely covered. Documentation of proper maintenance is crucial for claims.

How does solar discharge affect a battery warranty?

Manufacturers like Sonnen track discharge cycles via software; violating recommended DoD limits (e.g., 80% for lead-acid) invalidates warranties. Solar storage systems often require mandatory cycle limits (e.g., 6,000 cycles at 90% DoD) for validation. Depth of discharge directly impacts electrode stress in lithium-ion cells.

What is the warranty period provided by sigenergy?

Besides the above product, for vulnerable part such as strips light in decorative cover, the warranty period provided by SIGENERGY is 2 years. The date of product be installed, activated and registered on site.
