

# Where are the 5G base stations in Dubai

## Overview

---

How many 5G stations are there in the UAE?

5G is well-deployed in major urban areas and along main transport routes, but less so in more rural areas. The UAE is estimated to have approximately 7,000 5G base stations, representing seven stations per 10,000 residents. The two principal network operators (Etisalat by e& and Du) as well as the main VMNO Virgin Mobile offer 5G connectivity.

Where are Huawei 5G base stations located?

Huawei has deployed its 5G base stations in several countries worldwide, including China, South Korea, UAE, Switzerland, and Canada. The deployment has had a significant impact on network performance by offering increased speed and bandwidth, improved latency, greater capacity, and enhanced coverage.

Which countries have a 5G base station?

China: Being the home country of Huawei, China was one of the first countries to deploy Huawei's 5G base stations. The deployment has been extensive, covering major cities and regions throughout the country. South Korea: South Korea is another country that has extensively deployed Huawei's 5G base stations.

What is the UAE Strategy for 5G & beyond?

This is in line with the UAE Strategy for 5G and Beyond (2020-2025), which includes enabling and achieving long-term social and economic benefits in various areas such as manufacturing, transportation, healthcare, and education. 6 The TDRA published a White Paper on 5G roles in Industry Digitalisation in the UAE in October 2022 (White Paper).
