# **Where is the Solomon Islands Telecommunications BESS Power Station near**

## Overview

---

What's new at Solomon power station?

The project was completed by MAN diesel for over SBD120m. The new station has been commissioned and is currently in operation. Furthermore to improve the reliability Solomon Power invested in a new 11 kV switchboard, two 1.6 MW diesel generators and two new power transformers at Honiara Power Station.

What is the Solomon Bess?

Designed to store energy from Fortescue's planned 150MW of solar generation, the Solomon BESS will enable greater use of renewable power in mining operations and contribute to significant reductions in annual carbon emissions across Fortescue's Pilbara network.

What's new at Honiara Power Station?

The new station has been commissioned and is currently in operation. Furthermore to improve the reliability Solomon Power invested in a new 11 kV switchboard, two 1.6 MW diesel generators and two new power transformers at Honiara Power Station. 2.

Is Solomon power constructing a new outstation in malu'u?

This is the first time in 31 years that Solomon Power is constructing a new outstation the last one being in Malu'u. The scope includes solar panels, battery storage system, back up diesel generator and 415 V distribution network to connect about 200 customers at each of these sites in Western Province and Choiseul Province.
